

SOME WINNERS TOMORROW AND BUSY LEADER

Republicanism Will Sweep Hawaii

(Continued from Page 1.)
will be the biggest majority ever given there. On this point he can get all the bets he wants from Republicans, for reports from the big island show that Kuhio's personal campaign there strengthened his cause a great deal.

It was rumored this morning that the Democratic barrel will be opened this afternoon, and the Democratic rumpers confidently expect that McCandless has filled the barrel in an effort to swing the voters into line for tomorrow.

GREAT PARADE TO END THE CAMPAIGN

Republican enthusiasm will have full swing tonight in the course of the big parade that has been planned by the party leaders and which will reach a stirring culmination when the Republican hosts will gather in Aala Park for the last time before the election and listen to the speeches of the leaders.

The necessary preliminaries to the parade have been left largely in the hands of Colonel Jones of the National Guard, and he has been working all day on the details.

The Final Speeches.

The parade will gather in the grounds of the Capitol and will march along King street to Aala Park. There all the party candidates from Kuhio down will mount the rostrum and have their last word on the question of Republicanism and prosperity versus the McCandless platform.

One of the features of the parade will be the presence in line of over two hundred cowboys, who will have declared themselves anxious to appear in the Republican ranks tonight.

The business and professional life of Honolulu and the outside districts will be fully represented in the parade, and there will be nothing left undone to show in decisive fashion the actual and predominating sentiment among the business interests of the community in the problem that will be decided by the voters of Honolulu and the Territory tomorrow.

Houses Represented.

The business houses that will be represented in the parade are as follows:

Theo. H. Davies & Co., Honolulu Construction & Draying Co., McCabe, Hamilton & Renny, Honolulu Iron Works, J. M. McChesney, Oat & Mossman, Honolulu Planning Mill, E. O. Hall & Son, Henry May & Co., Manufacturers' Shoe Co., R. W. Perkins, B. F. Ehlers & Co., Honolulu Must Co., J. M. Levy & Co., Lewers & Cooke, Hopp & Co., Honolulu Wire Bed Co., Union Feed Co., von Hamm-Young Garage, the Young & Young Co., Tom Sharp, Auto Livery Co., C. Brewer & Co., Warehouse Trust Co., F. L. Waldron, Allen & Robinson, Inter-Island Steam Navigation Co., Macfarlane & Co., F. A. Schaefer & Co., James F. Morgan, M. Phillips & Co., Benson, Smith & Co.; the Waterhouse Co., Castle & Cooke, M. McInerney, T. G. Thrum, H. P. Wichman, T. C. Hawaiian News Co., Jas. Steiner, Hustace-Peck Co., R. L. Little, Silva's Toggery, California Feed Co.

Led by Band.

The parade will be led off by the Hawaiian band, and the band will be followed by a big delegation representative of the Fourth District, which has selected a platoon of marchers that will indicate that the support of the Republican ticket is in every element of the district's residents.

Following it is planned to have a huge transparency showing the names of all the party candidates. Many of the marchers will also be equipped with torches.

The longshoremen to the number of several hundred will be in line, and they will show with finality where they stand on the political issue.

March at 7:30.

Seven o'clock is the hour set for the forming of the parade in the Capitol grounds, and a quick start is planned. It is expected that the parade will be in full swing by 7:30 o'clock and it will probably take over a half hour for the marchers to reach Aala and make a beginning in the last statement of Republican principles to the people.

A Record Breaker.

There will be men in the Republican parade tonight who have never been identified with anything of the kind before, but are determined to show that they are willing and anxious to walk the streets of Honolulu as part of the campaign against McCandless' threatening of the prosperity of the Territory.

JOHN C. LANE,
Candidate for Mayor.

JOHN CATHCART,
Candidate for City Attorney.

J. KUHIO KALANIANA'OLE,
Candidate for Delegate to Congress.

ROBERT W. SHINGLE,
Candidate for Treasurer.

CECIL BROWN,
Candidate for Senate.

WILLIAM WILLIAMSON,
Candidate for House.

CHAS. F. CHILLINGWORTH,
Candidate for Senate.

ED TOWSE,
Candidate for House.

D. KALAUOKALANI, JR.,
Candidate for City Clerk.

A. L. C. ATKINSON,
Chairman Republican Territorial Central Committee, head of campaign in Territory.

DEMOCRATS TO MARCH FROM ATKINSON PARK

The Democratic rally tonight will start from Atkinson park shortly before 7:30 o'clock. The various wings of the procession have been ordered to assemble at the park at 6:30 o'clock and will be organized there. The men will march to Aala park, and a generous supply of torches has been ordered. The Democrats will attempt to vie with the Republicans in the torchlight feature.

VIERRA STANDS BY HIS PARTY

President first military baseball league of Hawaii; first president Oahu Baseball League; first president Kalaniana'ole Baseball League; first president Oahu Junior Baseball League; president Riverside Baseball League; manager Oahu Baseball League; member board of arbitration, Kapio-lani Baseball League; promoter of first Marathon race in the Territory.

To Whom It May Concern:

In yesterday morning's issue of the Advertiser, November 4, I am credited with making the announcement that I had joined the Democratic forces and am prepared to deliver to them the Portuguese vote.

I must candidly say that I did intimate that I could use my influence with a good number of voters who in the past have stood by me and made all of my sporting events the success that they have been.

But allow me to say, in justice to the Republican party, which I have served since the institution of American politics in Hawaii, that on the impulse of the moment, due to the erratic actions of some of the runners of the party, I turned my faith against it to gratify my feeling against these runners.

The party itself, of which I am a supporter, namely, the Republican party, should not and will not suffer, if it be within my province to prevent it, on account of the actions of a few individuals, who unfortunately, belong to it, not as candidates, but as runners. I have been shown the record of some of the candidates on the Democratic ticket, and I can not in justice to myself

DEMOCRATS HIRE CHAIRS OF JAPANESE

Democrats have been patronizing Japanese firms to secure the chairs for their rally tonight. This morning the citizen furniture firms that usually supply chairs for such occasions were approached by Japanese merchants in the same business, seeking to hire chairs.

The Democrats had placed their order for chairs with the Japanese firms, and the latter, not having enough to meet the demand, went to the citizen firms for assistance.

The people who alt in the Democratic chairs this evening will support the Democratic cause that tries to get votes from citizens and sends its business to the non-citizen business houses.

and my friends allow them to handle the reins of government. To those who have in the past taken my advice, you know what has been the outcome; to those who have not, I appeal to you that you may not scatter to the four corners of the earth that great constitutional right with which you are blessed—the right to vote. In using this privilege, I again ask you to use it right, and vote the Straight Republican ticket.

Some of you may not like a certain candidate on the ticket, but when you scratch, some other will get the benefit, and when the votes have been counted the man that you scratched and the man that the other fellow scratched will leave the candidates you voted for in a compromising position. So make up your mind to do the right thing, and if our next administration fails to deliver the goods, then, and then only, will you have cause to complain and the remedy shall still be in your hands. But give them a chance to fulfill what they promise to undertake, without any obstacle to impede their progress. Remember in the past you have

stood by me; through you I have been successful. Again I ask your cooperation, which, as friends of my boyhood, I expect to receive.

Thanking you for past courtesies, I am, sincerely yours,

A. K. VIERRA.

GIANT AIRSHIP FOR THE BRITISH NAVY

Remarkable Craft Designed as First of a Big Fleet of War Balloons.

BARROW, Eng., Oct. 22.—Although no date has yet been fixed for the launch of Britain's first naval airship, there is every reason to hope that she will emerge from her huge shed at Barrow some time next month.

It was officially stated in Parliament last June, but months after month has gone by, and still she remains a closely-guarded, hidden mystery. Three days ago, however, the cruiser Hermione, which is to be

the air vessel's "mother-ship," arrived at Barrow, and that is taken as a sure sign that the work is nearing completion. When this great airship is launched she will be not only the largest and speediest airship in the world, but a perfect marvel of naval ingenuity.

"Naval Airship No. 1," as she is officially described, will be amphibious in her duties—she will remain in the air and have her home on the water. She is being built on the water, and her home station will be on the water.

When she ascends in the air she will act as a vigilant, far-reaching scout, searching for the enemy, and her capacity is so great that she will be able to remain away for three or four days before gliding back to her station on the water, like a home-coming gull.

The corrugated iron shed, in which the dirigible is being constructed is about 200 yards long and thirty-five yards wide, and is built over a wooden barge, which is in the water, and the dirigible is launched by a crane which is on the barge.

HENRY DAMON BACK IN TIME TO VOTE

Nine years of absence from the Territory did not quench the Republican fire in Henry Damon's breast. Young Damon, son of S. M. Damon, arrived in Hawaii three days ago, after an absence of nine years spent in studying in Scotland, and will vote the straight Republican ticket tomorrow. As his domicile has been in the Territory all the while he was studying his legal right to vote is unquestionable. He says that the straight ticket is the thing for him. He was registered this morning.

CHAIRMAN IS ILL BUT WORKS ANYHOW

A. L. C. Atkinson, chairman of the Republican Territorial Central Committee on the eve of battle is hardly able to get out of bed. Something that is akin to pneumonia poisoning has attacked him, and he was unable to be at his usual post at Republican headquarters this morning. This afternoon he is slightly better. He will, however, resume activities tonight.

Two gondola-like boats, one at either end of the airship, will preserve her buoyancy on the water. The fact that the airship will float is one of her many surprising characteristics. Two gondola-like boats, one at either end of the airship, will preserve her buoyancy on the water.

An elaborate and ingenious arrangement of network and anchors will also be employed to steady the ship while at rest, even during the stormiest weather. The boats will be the living quarters of the two officers and six men who are to work the vessel, and they are being fitted with every necessary convenience, such as sleeping berths, cooking galley, stores and so on, to enable a cruise of two or three days to be made.

The boats are large enough to accommodate at least fifty men, but all the spare space will be devoted to the storage of petrol, as hundreds of gallons will be required on continuous long cruises. The balloon cloth is of a special texture, which combined lightness with strength, and many miles of it have been used in the making of the huge envelope. The outer covering is made of the new alloy of aluminum, which is much stronger than aluminum itself and only slightly heavier. The engines have been specially designed to meet the requirements of the admiralty, and it is believed they will in moderate weather give the airship a speed of fifty miles an hour.

A SUGGESTION ON ECZEMA

It is suggested that eczema sufferers ask Honolulu Drug Co. of this city what reports they are getting from the patients who have used the oil of wintergreen liquid compound, D. D. D. Prescription.

Big Majority For Kuhio Is Seen

ALL PARTIES WILL MEET AT AALA PARK

The political activities of the year will come to a focus in one spot tonight, and that spot is Aala park, where the Republicans, Democrats and Home Rulers will each hold their final rallies of the campaign.

Torchlight squadrons by the whole sale will swing into line; candidates will be thicker than mosquitoes and the member of any party will have no difficulty in hearing both his own and his rival's policies explained.

The Aala park meeting will certainly be the biggest and ought to be the most entertaining of the campaign. It was announced from the Home Rulers' camp this morning that the Home Rulers will appear on the Republican platform. The Home Rulers have endorsed a number of Republican candidates and the G. O. P. nominees will undoubtedly poll a big vote from the Home Rule electorate.

The Republicans will occupy the bandstand, having secured permission from the Board of Supervisors, which contains but one Democrat, McCandless. The Democratic management had previously secured a permit to occupy the stand from the Mayor, but the Mayor's permit was overridden by the Board and the Republicans won out on this issue.

The Democrats today were busy getting together a platform and chairs in another part of the park.

The Aala meeting tonight promises plenty of excitement, and as both parties will have out their full force of campaign orators, politics will be flowing freely.

SAINTS IN A PLAN TO ABANDON UTAH

GALVESTON (Tex.), October 22.—Following the sale of 50,000 acres of land in Coahuila, Mexico, opposite Eagle Pass, Tex., to the Mormons, comes the report from Prophet Smith of the Mormon Church that Diaz has promised the Mormons liberty for the full practice of their religion, which means polygamy without interference. The officer of the church further states that Utah and Idaho will be in the near future abandoned by his people, who find more profitable homes in Mexico, where they will no longer suffer religious persecutions.

He says that his people really do not intend to return to plural marriages, but it is part of their religion which has been forbidden in the United States, and gradually their rights and freedom have been diminished by laws passed by the United States with direct intent to persecute the Mormons.

The Mormons have a well organized colony on 65,000 acres of land adjoining this 50,000-acre tract just acquired, and they hold options on nearly a half million more acres of food land in that vicinity. The colony established in Mexico in the State of Chihuahua, nearly three years ago, which a year ago moved to the 65,000 acres in Coahuila, was a test colony sent to Mexico by the Utah Mormons to study conditions, the treatment of the Mexican government and pave the way for the acquisition of more, and everything was satisfactory. Fifty families will leave Utah within two weeks for the Mexican home and it is planned to have a Mormon settlement of 5,000 families in Mexico within the next eighteen months.

Mexico waives the duty on all Mormon property moved, including all machinery and stock. Taxes are also waived for twenty-five years and, while the price of land is not made public it is said it amounts practically to a gift from the Mexican owners to the Mormons.

The original colony in Mexico has cultivated thousands of acres of land and built churches and schools and is prospering, and upon their very favorable report the movement to abandon Utah has been decided upon.

This will be the fifth Mormon horra, if it takes place. The church was organized at Fayette, Benewah county, N. Y., in 1830. The first move was to Jackson county, Mo., in 1831. Subsequently treks were to Clay county, Mo., in 1833, to Nauvoo, Ill., in 1840 and to Utah in 1846.

Nippon Maru Carried Mail.

Two layover passengers and a consignment of mail destined for the mainland departed for San Francisco by the Japanese liner Nippon Maru. The vessel sailed shortly before nine o'clock yesterday morning. It is predicted that the Nippon Maru will arrive at San Francisco some hours before the United States army transport Logan that sailed for the coast on Saturday afternoon.
